Journal of Animal Husbandry and Veterinary Medicine in Tropical Countries

Journal of Animal Husbandry and Veterinary Medicine in Tropical Countries is an international quarterly review, in which articles and original communications of applied research are published, as well as syntheses on animal health, food resources and livestock production in the tropical and subtropical areas.

description

The Revue d'élevage et de médecine vétérinaire des pays tropicaux is one of CIRAD international scientific journals with a peer review system.

The journal publishes on a quarterly basis the results of original applied research articles and communications, and scientific reviews in the fields of animal health (infectious and parasitic diseases) and animal productions (animal feed and resources) in tropical and subtropical areas.

This journal is addressed to those which seek answers to the increasing demand for animal products and quality, by taking of account the environment and the balance of the pastoral and agropastoral systems in the hot areas of Africa, Asia, Latin America and the Pacific.
