

The Global Platform for African swine fever and other important diseases of swine

The Global Platform for African swine fever and other important diseases of swine

Proceedings - Rome, Italy 5-7 November 2013

With the generous support of the United States Department of Agriculture (USDA), FAO brought together key stakeholders with the aim to establish a Global Platform that could coordinate ASF early warning, prevention and progressive control efforts. Participants included i) international organizations; ii) development agencies; iii) regional organizations; iv) governments; v) research institutions; vi) reference laboratories; and vii) the private sector. The objectives of the meeting were to:

- Present the Platform's concept, including vision, mission and goals.
- Clarify stakeholder expectations with regard to the Platform.
- Decide on the network's membership, structure, sustainability and governance
- Define the Platform's scope of action for the short and medium term.
