

Enhancing the Contribution of Smallstock to the Livelihoods of Resource-poor Communities

Enhancing the Contribution of Smallstock to the Livelihoods of Resource-poor Communities
Poster session

?Enhancing the Contribution of Smallstock to the Livelihoods of Resource-poor Communities?

Pietermaritzburg, South Africa,

from Monday 12 to Thursday 15 September 2005.

During the international workshop on ?Enhancing the Contribution of Smallstock to the Livelihoods of Resource-poor Communities?, a selection of posters and oral presentations have been presented to the members. The conference board have allowed us to put on-line these documents specifically focused on veterinary and production issues in swine.

T.Krecek

Let's break the tapeworm life cycle with these six easy steps Toxoplasmosis in piglets

[NEWS_050520_001_Cysticercosis_Poster_English.pdf \[427,30 kB\]](#)

T.Krecek

An inventory of plants used to treat zoonotic helminths in South Africa

[Plants in South Africa.pdf \[224,89 kB\]](#)

Vincent Porphyre, France

PigTrop Website <http://pigtrop.cirad.fr>: an internet portal dedicated to pig production
Research and Development in the Tropics
