

Improved Rural Livestock Production in Lao PDR

Improved Rural Livestock Production in Lao PDR
Technical manuals

4 training manuals from the Lao-EU Livestock Project to strengthen improved pig and poultry rural production, reinforce the capacities of Village Veterinary Workers and improve animal cares in rural areas - in English and Lao.

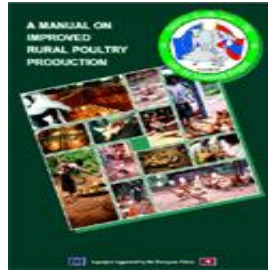

Content

The specific objectives are to strengthen veterinary services and the extension network at all levels for an efficient and sustainable delivery of animal health and production services, and thereby, to reduce disease incidence, improve management practice and increase livestock productivity.

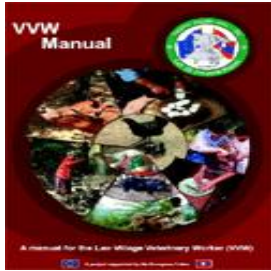

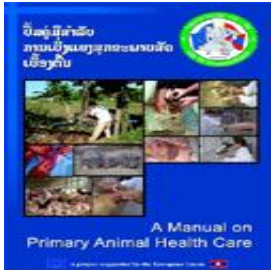

Within this framework,

training manuals

in hard copy and electronic versions have been produced in English and Lao language. Both versions are now available for download:
