Modern Pig Production Technology - A practical guide to profit

Modern Pig Production Technology - A practical guide to profit

John Gadd (Nottingham University Press)

This is the third textbook from this award-winning and internationally-recognised pig consultant. Having already covered 'Pig production Problems' and their solutions followed by 'What the Textbooks don't tell You', this new book goes further in providing practical, easy-to-understand advice on all the important management techniques used by the most successful pig producers today. It also describes and analyses likely future developments and how they might fit in to the economic scene.
