The Global Platform for African swine fever and other important diseases of swine

The Global Platform for African swine fever and other important diseases of swine

Proceedings - Rome, Italy5-7 November 2013

With the generous support of the United States Department of Agriculture (USDA), FAO brought together key stakeholders with the aim to establish a Global Platform that could coordinate ASF early warning, prevention and progressivecontrol efforts. Participants included i) international organizations; ii) development agencies; iii) regional organizations; iv) governments; v) research institutions; vi) reference laboratories; and vii) the private sector. The objectives of the meeting were to:

- Present the Platform?s concept, including vision, mission and goals.
- Clarify stakeholder expectations with regard to the Platform.
- Decide on the network?s membership, structure, sustainability and governance
- Define the Platform?s scope of action for the short and medium term.
